Learning and teaching methods
The Learning and Teaching Methods for the Module follow the intended on-line deliver Strategy for the Programme as a whole.

The module will be delivered through the provision of specified reading materials which shall be provided on the virtual learning platform, which shall be supported by specified discussion forums and lecturecasts, supported by fortnightly synchronous Q&A sessions.

Students will be provided with indicative guidance on, and encouraged to look at, relevant websites which are appropriate to the module, and to identify and share appropriate web-based resources as learning support references with their fellow students and as indicators of their individual learning contexts with their tutors. The lecturecasts will include referenced use of selected case studies which will be drawn from the reading materials/web based module learning resources and the practice-based and professional/educational contexts and experience of the Tutors.
