Credit value	10	Study duration	6 weeks

Leading with Impact

Module description

Leadership is an important topic in the field of business and management studies, both from a theoretical and a practical perspective. The overarching objective of this module is to develop students' understanding of leadership within organisations. The module introduces students to a wide range of models, theories and topics within leadership and highlights central debates in the field. The module will cover traditional approaches to leadership, current issues in leadership and critical issues in leadership from a theoretical and a practical perspective. At the end of the module students will have developed a critical appreciation of leadership in modern organisations.

This module aims to:

- Provide you with an understanding of theories on leadership
- Introduce you to the practice of leadership
- Enable you to critically analyse leadership

Learning outcomes

On completion of this module, students will be able to demonstrate:

- demonstrate a clear understanding of the key elements of the various theories and concepts on leadership
- critically evaluate practices of leadership
- change leadership in organisations

Syllabus

- Overview and key concepts
- Charisma
- Power
- Change
